Programme Information

The following points of advice will support staff involved in designing publicity material for programmes to ensure information is accessible to students with a range of different needs.

- Ensure that the programme and module learning outcomes are clearly articulated and available to students in pre-programme / module materials.
- Ensure that all approaches to learning & teaching delivery are highlighted in programme publicity so that students can make an informed choice about the programme they choose.
- Make sure that information is available in alternative formats if requested (large print, Braille).
